Executive Director

NOTE FOR THE DDI

Bjt :

- ° As discussed on the phone, this gives me some heartburn.
- ° PFIAB consultant recommends study which he and another have underway.
- ° OGC says there is an apparent conflict of interest but EXDIR can OK if the proposed activity "is sufficiently desirable for cover or operational reasons to justify an exemption".
- ° Questions: 1) Since the study is underway and will be published, how pressing is our requirement to get it before publication?  
2) Is the high level interest an Agency judgment? Reconfirmed? Any political consideration in PFIAB association?  
3) Is this best handled as a sole-source study? Could we satisfy the requirement at equal or lower price through another contractor?
